README:NoteZen

Your personal note organizing companion.

Description

NoteZen is a modern, minimalistic note organizing web app designed to help users capture, categorize, and manage their notes efficiently. Whether you're a student, professional, or someone who loves to stay organized, NoteZen offers an intuitive interface to quickly jot down ideas and access them anytime.

Features

- Easy-to-use note creation and editing

- Categories or tags for organizing notes

- Responsive design for mobile, tablet, and desktop

- Clean and distraction-free UI

Setup Instructions

1. Clone the Repository

git clone https://github.com/Hareem123Javed/NoteZen.git

2. Navigate to the Project Folder

cd NoteZen

3. Open the Website

You can open the index.html file directly in your browser:

- Option A: Double-click index.html

- Option B: Use a local server (e.g., with VS Code Live Server extension)

4. Deploy on GitHub Pages

If you're using GitHub:

- Push your project to a GitHub repo

- Go to Settings > Pages

- Select branch and /root

- Your site will be live at: https://Hareem123Javed.github.io/NoteZen/
